

Technology-Based Clinical Supervision Learning Activity Week 4

For your Learning Activity this week, please read the Bender and Dykeman article "Supervisees' Perception of Effective Supervision: A Comparison of Fully Synchronous Supervision to Traditional Methods."

1) Consider the following and be prepared to discuss at our next session.

- a) What was your reaction to reading this article? Did you find anything surprising?
- b) What were the main issues that the article found to be affected by this modality of supervision?
- c) What are the implications of this research in the supervision that you do?
